Reasons for Allowance

1. The present claims are deemed allowable over the references of record since the references of record fail to disclose or render obvious the claimed structure.

While the prior art of record, as exemplified by Shimazawa et al. disclose or render obvious magnetic detecting elements comprising first, second and potentially third antiferromagnetic (AFM) layers meeting applicants' claimed limitations, the prior art of record fails to teach or render obvious a pair of second AFM layers meeting applicants' claimed limitations (*as represented by element 31 in Figure 1*). Furthermore, with respect to claims 15 and 16, the prior art fails to teach or render obvious the claimed structure for the reasons cited in Paragraph 12 of the Office Action mailed on March 7, 2005.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kevin M Bernatz whose telephone number is (571) 272-1505. The examiner can normally be reached on M-F, 9:00 AM - 6:00 PM.
